# KNOW YOUR COACH

Venugopal Chepur has been a global executive, board member, advisor, business strategist, consultant, coach, entrepreneur. He has been an acclaimed resource for driving business growth through digital transformation and fostering workforce and organizational development. He is passionate about transforming people's lives by enhancing their employability, professional growth, and spiritual well-being.

In 2010, Mr. Chepur founded Samprad, a CXO advisory firm in the US specializing in digital transformation and growth strategies. Furthermore, he has also founded TrainedArrow.com, and created impactful learning and development programs, via TrainedArrow™ with profound concepts, a transformative approach for instilling essential foundational strengths and life skills in the workforce.

With an impressive track record, Mr. Chepur has coached and mentored more than 900 professionals, ranging from graduates and employees to entrepreneurs. He has also provided guidance to 7 startups globally. He has also been a panel judge for the Be-Your-Own-Boss Bowl entrepreneurial competitions at the Fox School of Business.

Mr. Chepur epitomizes the values of continuous learning, giving, and leadership with humility and resolve!

LearnAhead™

## OUR RESEARCH AND COURSE DESIGN

**LearnAhead™** is the result of our extensive research of the components of structured learning that strengthen graduates with the holistic professional preparation they need.

We found graduates need essential awareness of who they are, the value they could create for themselves and their employers/customers, and the resilience to endure career shifts and deal with confusing self-images of what others think of them, amid ever-changing personal, professional compulsions. We have designed the course to build confidence, resilience, adaptability and self-awareness to lead a fulfilling career and for a life well-lived!

We have also refined the course content and structure along the way based on their experiences and results, for quick and easy learning in an explanatory animated format to complete in about 12 hours.

## COMPELLING CAREER EXPECTATIONS

Graduates face a huge challenge in transitioning from college to the professional world. Despite career counseling at the college and being advised to hit the ground running, many graduates feel disoriented, confused, dissatisfied, and even intimidated with the real world. They need preparation to learn to adapt to change and reinvent, find freedom to explore varying career options, and pave their own career path.

**LearnAhead™** is designed to prepare graduates (graduating students and interns) for this journey of their life. To win jobs, meet employer expectations, endure transitions and adapt to changing job markets, pursue entrepreneurial aspirations, and lead fulfilling careers regardless of their academic disciplines.

# WHY *LearnAhead*™
